

TISAX Trusted Information Security Assessment Exchange

For WST-Präzisionstechnik GmbH, integrity, availability, and confidentiality are of high importance. Therefore, WST-Präzisionstechnik GmbH has undergone a TISAX assessment.

The ENX Association, in cooperation with the VDA, supports the general acceptance of information security assessments in the automotive industry in Germany through TISAX..

The TISAX assessments, conducted in the form of audits, are carried out at regular intervals (every three years) by accredited certification bodies (in this case, DQS GmbH using the VDA-ISA questionnaire). The results can be viewed online by companies listed in the ENX portal.

The TISAX certification of WST-Präzisionstechnik GmbH can be accessed in the ENX portal under ID L04589.
